## DETAILED ACTION

This is responsive to Amendment filed on June 30/03. The Amendment has been entered.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 30-32, 34-36, and 38-40 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claims 30 and 38 the following limitations have new subject matter "each of the plurality of reverse communication channels and each of the plurality of forward communication channels utilize the same frequency band that comprises forward and reverse direction communication channels". More specifically, the specification as originally filed does not disclose the feature of "**same frequency band**".

In claim 34, the limitation has new subject matter "the reverse communication channel and the forward communication channel utilize the same frequency band that comprises forward and reverse direction communication channels". More specifically,

Art Unit: 2662

the specification as originally filed does not disclose the feature of "**same frequency band**".

Claims 31, 32 and 39, 40 depend respectively from base claims 30 and 38, thus they are subject to the same rejection.

Claim 35 and 36 depend respectively from base claim 34, thus they are subject to the same rejection.

### ***Response to Arguments***

2. Applicant's arguments with respect to claims 30-32, 34-36, 38-40 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
